Skill India
कौशल भारत - कुशल भारत

Another thing on which we have to focus is how to integrate global with local? Today, India's talent is in great demand all over the world, for this it is necessary that in view of the global demand, mapping of skill sets should be done and on the basis of that the youth of the country should be prepared. Whether it is bringing international campuses to India or adapting best practices from other countries with collaboration, we have to walk shoulder to shoulder. Along with making the youth of the country industry ready, there is also a need for an organized effort regarding the effective mechanism of skill upgradation with new challenges, changing technology.

Message by Hon'ble Prime Minister

What Is SSW Program

- 

On 8th December 2018, the Act of amending the Immigration control and Refugee Recognition Act and the Ministry of Justice Establishment was passed and enacted in Japan.
- 

The Union Cabinet, chaired by Prime Minister Shri Narendra Modi, has approved the signing of a Memorandum of Cooperation (MOC) between the Government of India and Government of Japan, on a basic framework for partnership for proper operation of the system pertaining to “Specified Skilled Worker”
- 

The status of residence of “Specified Skilled Worker” was established regarding the foreign national who possess certain specialized knowledge / skills in the industries that have the difficulty in recruiting domestic human resources (referred as the specified industrial fields).
- 

Under this MOC an institutional mechanism for partnership and cooperation between India and Japan will be set on sending and accepting skilled Indian workers, who have qualified the required skill and Japanese language test, to work in fourteen specified sectors in Japan. These Indian workers would be granted a new status of residence of “Specified Skilled Worker” by the Government of Japan.
- 

Herewith, it is possible to accept foreign human resources as the status of residence of “Specified Skilled Worker” as on April, 2019.
- 

Japan needs more than 3 lakh skilled person in 14 specified sectors.
